G. H. Financials Quarterly Newsletter

Issue: #4 | April 2015

The global exchange-traded derivatives market place is one of the most dynamic markets in the world. G. H. Financials quarterly Newsletter – “Global Clearing” – aims to give our clients an overview and insight into how G. H. Financials is leading from the front in adapting to an ever-changing market landscape in order to give our clients market-leading service and support in their trading activities.

INTRODUCTION FROM LONDON

Steve G. Martin - COO G. H. Financials

I would hope that most of you will have seen the [press release dated April 8, 2015](#) where we announced that G. H. Financials has been accepted as the first ever remote clearing member of ASX Clear (Futures), and also as a trading member of ASX 24.

To get to where we are today has taken a lot of effort, and has also required a leap of faith by the entire Australian Securities Exchange (ASX) team; we are extremely grateful to them for the trust that they have shown in G. H. Financials, and for their hard work and forbearance as we worked together to map processes and policies across different regulatory jurisdictions.

Active in our clients' time-zones:

International players can now reach this market via a clearer that is active during the US and European working day. The time-zone difficulties that have made safe and secure access to ASX a problem now go away as G. H. Financials Clearing, Risk and IT people have direct access to the exchange infrastructure from London.

ASX 24 has a raft of exciting, liquid, tradable products that are now as easy to access as Eurex, CME or ICE, and in partnership with our friends at ASX 24 and ASX Clear (Futures) we look forward to introducing those trading opportunities to you all.

Whether you require screen-based access, desk-based access, or a co-located DEA solution, your normal contact at GHF will be able to help you reach a whole new liquidity pool - please do not hesitate to ask for more information, and we look forward to welcoming you onto the market.

Steve G. Martin: steve.g.martin@ghfinancials.com

EXCHANGE FOCUS

Research, Viewpoints & Analysis

CME Group Chief Economist, Blu Putnam, and Senior Economist, Erik Norland, frequently share their insights and analysis on market events. Their research reports and findings provide a better understanding of factors impacting the financial world today.

You can read Blu Putnam's assessment of six major debates feeding more volatility into the markets in 2015 in the article, [Volatility: Rough Ride Ahead](#)

For a full listing of CME Group research, please see : www.cmegroup.com/research

PREVIOUS EVENTS

FOW's Evolution of Proprietary Trading

G. H. Financials co-sponsored FOW's 'Evolution of Proprietary Trading' which was held in London last month.

The event was focused on the increased automation of trading strategies and the search for new products in the wake of the current low interest rate environment.

G. H. Financials Global Head of Sales and Marketing, Mark Phelps, joined the eminent panel from the proprietary and market making community.

Networking & CNBC'S Rick Santelli

Rick Santelli, usually seen reporting from the CME Group trading floor, was the guest of honour at our networking event held in Chicago in March.

It was a successful and well-attended event, by individuals from across the financial industry.

UPCOMING EVENTS

Networking & Drinks with G. H. Financials & ASX

Brown TLV Urban Hotel
Tel Aviv

28 April 2015

G. H. Financials and the Australian Securities Exchange (ASX) will be holding a networking and drinks event in Tel Aviv on 28 April 2015.

This is an excellent opportunity to find out about the Clearing and Market Access solutions that G. H. Financials provides and the latest developments on the Australian derivatives market.
