G. H. Financials Quarterly Newsletter

Issue: #6 | September 2015

The global exchange-traded derivatives market place is one of the most dynamic markets in the world. G. H. Financials quarterly Newsletter – “Global Clearing” – aims to give our clients an overview and insight into how G. H. Financials is leading from the front in adapting to an ever-changing market landscape in order to give our clients market-leading service and support in their trading activities.

INTRODUCTION FROM HONG KONG

Sharon Shi Managing Director - G. H. Financials (Hong Kong) Ltd.

I've been with the company since the beginning where I was part of a team that launched G. H. Financials (Hong Kong) Limited in 2013. With existing offices in London and Chicago, the Hong Kong office completed our global footprint and is the hub for our expansion into Asia.

ASIA FOCUS - GLOBAL OUTREACH

Being geographically located in Hong Kong, the natural gateway to Mainland China, we benefit from a two-way opening of the China futures market. As a “wholesale clearer” for global listed derivatives, we are successfully growing our client base in Asia, attracting a number of non-clearing FCMs, algorithmic trading firms and execution-only brokers in the region. We have also actively explored the possibility of extending our clearing participation into the People's Republic of China as well as other emerging markets in Asia.

With a unique business model and a niche market strategy, G. H. Financials (Hong Kong) Ltd. is showing strong quarter on quarter growth in volume and revenue, despite the fact that the year has been another challenging one for the industry.

We aim to provide the best services possible to our clients, which can be characterized as the **“three R's” - Responsive, Reliable and Responsible.**

I am delighted to have the opportunity of witnessing the birth of our Asia presence and most importantly being able to grow together with our clients.

Sharon Shi: shi.ning@ghfinancials.com

NEWS

Online: Our Chinese Website | 全新中文网站

Further to the ongoing expansion of our Hong Kong office, which provides our Asian clients with local service and support, we are pleased to announce the launch of our Chinese language website.

Our Chinese website will help us to deliver greater levels of service to our growing number of local clients.

Market Access: Mercado Español de Futuros Financieros (MEFF)

We are continually expanding our exchange access to provide our clients with additional trading opportunities. G. H. Financials now provides Clearing services and Order routing services for the Mercado Español de Futuros Financieros (MEFF) derivative contracts.

MEFF is home to Spain's benchmark IBEX 35 equity index futures. The MEFF also lists single stock futures on some of Spain's largest corporations as well as futures on 10-year Spanish government bonds.

EXCHANGE FOCUS

Fed on Track for Rate Hike in September?

CME Group Chief Economist, Blu Putnam, reports on the Federal Reserve's expectation to raise interest rates for the first time in nearly a decade in September despite a sharp pull-back in China's high flying stock market that caused ripples in the United States.

[Read the report: Fed on Track for Rate Hike in September](#)

CME Group FedWatch Tool

Quickly gauge the market's expectations of a change to the Fed Funds target rate with the CME Group FedWatch Tool.
